Internet networking with the router in  
CISCO PACKET TRACER  
SIMULATOR

Aim:-

To design and configure a simple  
internetworking using a router.

In this networking, a router and 2 PCs  
are used. Computers are connected with  
router using a copper and three cable.

After forming the networking check its  
connectivity using a simple PC transfer from  
PC0 to PC1  
procedure:-

Step 1: Configure router

1. Select the router and open it
2. Press enter to start configuration  
a. type enable to activate the  
privilege mode.

Step 2: Configuring PCs

1. Assign IP address to every PC in  
the network.

2. Select the PC, config and assign  
IP address, default gateway, subnet

3. Assign the default gateway of  
10.2.10.1

4. Assign the default gateway of PC,  
as 10.2.10.1

## Step 3: Connecting PC with router:

1. Connect fast Ethernet C/Port of PC0 with fast Ethernet 0/0 port of Router 1 using a copper straight through cable.

2. Connect fast Ethernet C/Port of PC1 with fast Ethernet 0/1 Port of Router 1 using a copper straight through cable.

## Router configuration table

Device name	IP address	Subnet mask	IP Subnet fast Ethernet	Subnet mask
Router 1	192.168.10.1	255.255.255.0	192.168.20.1	255.255.255.0

## PC configuration table

Device name	IP address	Subnet mask	Gateway
PC0	192.168.10.2	255.255.255.0	192.168.10.1
PC1	192.168.20.2	255.255.255.0	192.168.20.1

## Designed networking Topology:

Simulation of designed network.

Topology: sending a packet from PC0 to PC1

July 1, 1964

1. What is the main purpose of the report?  
The report aims to provide a comprehensive overview of the company's financial performance for the year 2023, highlighting key achievements and challenges.

2. What are the key findings of the report?  
The key findings include a 15% increase in revenue, a 10% decrease in expenses, and a 5% increase in profit. The report also identifies areas for improvement, such as increasing operational efficiency and expanding into new markets.

3. What are the recommendations for the future?  
The recommendations for the future include implementing cost-cutting measures, investing in research and development, and exploring new business opportunities. The report also suggests that the company should focus on improving its customer service and marketing efforts.

4. What are the conclusions of the report?  
The conclusions of the report are that the company has achieved significant growth and profitability in 2023, but there is still a need for improvement in certain areas. The report concludes that the company is well-positioned for future success, provided it continues to implement the recommended strategies.

Result: Thus the above experiment is successfully completed and created.
